---

**Terms of Approval**

**Design Organisation Approval Certificate  
EASA.21J.202**

**1. Scope of approval**

This Design Organisation Approval has been granted for:

- designing in accordance with the applicable type-certification basis and environmental protection requirements changes to aircraft in the following areas:
  - Avionics
  - Electrical systems
  - Installation of avionics systems
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

**2. Categories of products**

Aircraft

**3. List of products**

[Not applicable]

**4. Privileges**

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) Subject to 21A.257(b), compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining a supplemental type-certificate shall be accepted by the Agency without further verification.

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design as "major" or "minor".
2. to approve minor changes to type design.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA nr. EASA.21J.202".

**5. Limitations [See also in 1, above]**

Structural changes are limited to those supporting the flight data monitoring and recording system changes.
